

# DYNAMIC WAH DW400

Ultimate Auto-Wah/Human Voice  
Effects Pedal

- The ultimate Auto-Wah/Human Voice effects pedal to create classic wah effects and unbelievable human-voice, "talking" sounds
- Real Sound Modeling (RSM) combines state-of-the-art DSP technology with sophisticated algorithms to emulate real acoustic environments
- Take off with incredible auto-wah sounds that can be controlled manually, via tap-tempo mode or expression pedal (not included)
- Dedicated Mode, Sensitivity, Manual and Decay controls for awesome sound shaping
- Status LED for effect on/off and battery check
- Runs on 9 V battery or the BEHRINGER PSU-SB DC power supply (not included)
- First-class electronic On/Off switch for highest signal integrity in bypass mode
- High-quality components and exceptionally rugged construction ensure long life
- 3-Year Warranty Program\*
- Conceived and designed by BEHRINGER Germany

If you think you've heard everything an auto-wah can possibly do, sit back and listen to the DW400 say a mouthful! This is one exceptionally expressive wah pedal. Also featured is a Human Voice effect, which creates unbelievably realistic "talking" sounds – and of course our RSM technology for the highest possible audio resolution.

## Wah-wah-what???

A wah pedal uses a filter to sweep through a wide frequency spectrum, boosting and exaggerating specific tones. As the sweep approaches the higher frequencies, the filter generates vowel-like sounds that are very much like the human voice. In the earliest wah pedals, this sweep was controlled by manual manipulation of a footswitch reminiscent of a see-saw. With the DW400, the sweep occurs automatically according to your control specifications. Or you can plug in an expression pedal (not included) to go old-school. And with BEHRINGER's Real Sound Modeling technology, the DW400 emulates the human voice like no other stomp box can.

Effects Pedal

## It's Easy!

You can either control the DW400's frequency sweeps by tapping a tempo with your foot, or by simply setting the dials. You'll have your guitar speaking in tongues after selecting one of 3 modes: Synth/Up/Down, Human Voice and Tap Tempo Modes. Next, tweak the Vowel (A/E/I/O/U) Sensitivity, Manual Vowel selection and Decay dials to create exactly the wah sound you desire. You can power this pedal with a 9V battery or our PSU-SB DC Power Supply (not included).

## Sound Value

Give your guitar a whole new voice with the DW400, and you'll have everyone talking. An Auto-Wah and Human Voice filter in one, the DW400 is one FX pedal you're guaranteed to have fun with! Plug into the DW400 at your nearest [BEHRINGER](#) dealer, or order yours online today.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [MUSIC Group](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty](#) program.
